Dear Dr. Pengfei Song,

You are cordially invited to attend and present the paper (s) listed at the Forty Fifth Annual International Conference of the IEEE Engineering in Medicine and Biology Society, EMBC'23. This prestigious event is the world's largest annual Biomedical Engineering forum and will be held 24-28 July 2023 at the International Convention Centre.

Join us in Sydney, Australia, as this year's theme, "Engineering Better and More Resilient Healthcare for All" and be a part of one of the most diverse, collaborative, and inventive biomedical communities in the world.

We have arranged plenary keynotes from leading academic and industrial scientists, who will present aspects of innovation and translational engineering in biomedicine. The scientific tracks will cover the standard topics of the EMBS technical committees. Beside the scientific sessions, the congress exhibition will show biomedical companies, start-ups, biomedical institutes, universities, and provide networking opportunities for engineers, clinicians, other scientists, entrepreneurs, and students. Cutting-edge research and innovation in biomedical engineering, healthcare technology and medical informatics will all be covered in this large conference. The conference program consists of mini symposia, workshops, special sessions, oral and poster sessions, and students and young professionals' activities. All papers will be peer reviewed; accepted full-length (four page) papers that meet the eligibility requirements will appear in the Conference Proceedings and be indexed by IEEE Xplore and Medline/PubMed. You will have access to a more customized Invitation letter (to include your name and paper information) once your paper has been accepted.

Please note that this invitation for participation does not, in any way, financially oblige either EMBC'23 or the IEEE Engineering in Medicine and Biology Society (EMBS) for the expenses you incur for travel and conference attendance, and all conference participants are expected to pay the registration fees according to conference policy.

For more information, please visit <https://embc.embs.org/2023/> we look forward to your participation in EMBC'23!

Sincerely,

Nigel Lovell & Sally McArthur
EMBC'23 Conference Co-Chairs

Accepted paper information:

Hang Yuan, Ruiqi Yong, Liu Shuhe, Wenwen Yuan, Sixuan Duan, Miao Lu, Pengfei Song, "A Centrifugation-Assisted Lateral Flow Assay Platform for Bioassay Sensitivity and Visualization Enhancement."
